TK SAFETY STAINLESS STEEL LPG CYLINDERS WITH TECHNOKONTROL®

TECHNOKONTROL[®] GAS CYLINDERS FOR BUTANE GAS

TK Gas Cylinders are made exclusively in our factory in Spain. Our factory complies with full safety & quality procedures under EU Directives.

- High-Tech manufacturing process
- 100 % recycable and eco-friendly
- Exclusive Safety Technology.

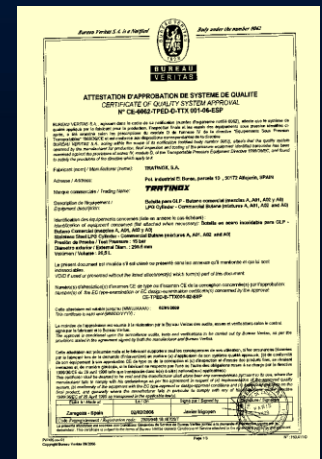

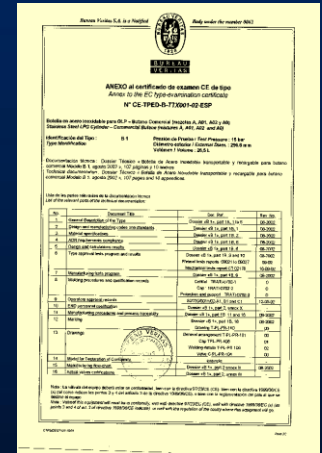

QUALITY CERTIFICATES

Our Tk-Gas Cylinders comply with
ISO 9001:2000/ ISO 14001:2004
ISO:18000/ISO:23000

TK cylinders are certified under EU
 directives , ADR and 1999/36 CE

Our TK-safety technology is manufactured
 under ISO9001/ ISO 14000/ ISO 18000
 Standards

WHY TO USE TECHNOKONTROL® GAS CYLINDERS?

- ★ No corrosion
- ★ No rust
- ★ No maintenance
- ★ Cylinders weigh 50% less empty & 25% full compared to other manufactures
- ★ 100 % anti- B.L.E.V.E -Safety Technology
- ★ 100 % anti- Explosion -SafetyTechnology
- ★ 15 % increase in delivery capacity due to our cylinders weighing less than our closer competitors
- ★ Qualified Health & Safety Standards for physical carriers
- ★ 100 % recycable & eco-firendly
- ★ Exclusive valve systems to stop contraband
- ★ Easy to handle and easy to clean

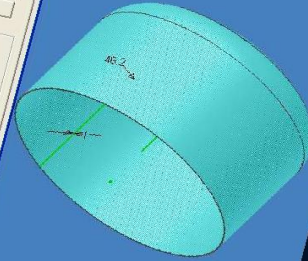

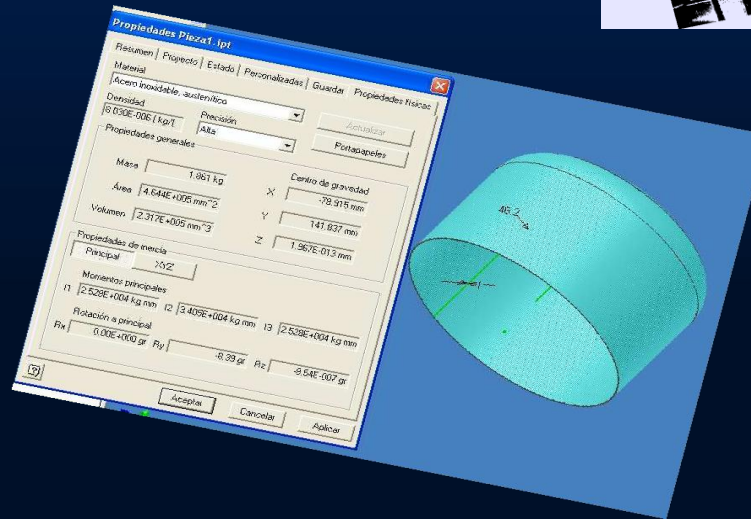

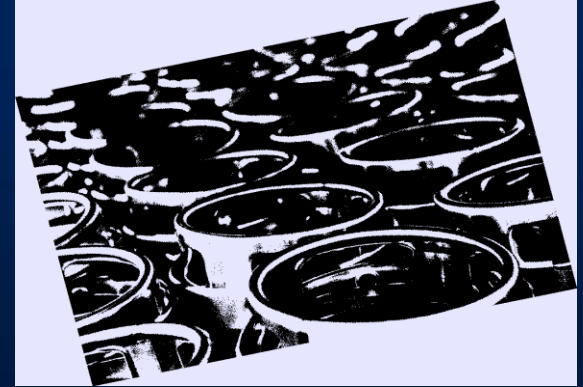

ADVANTAGES OF USING TECHNOKONTROL® GAS CYLINDERS

- ★ Our design allows us to reduce the thickness of the steel plate and to increase its resistance (135 bars compared to 100 bars used by other manufacturers).
- ★ The weight: 50% lighter than the traditional cylinders (when empty) and 25 % lighter when full compared to our competition.
- ★ Ergonomic system for easy handling.
- ★ Top crown protects the valve thus allowing for legal transport within private vehicles (EU 93/36 and ADR).
- ★ Our TK cylinders have an extended life span and the elimination of re-setting the gas cylinders every 5 years.
- ★ Product made from eco-friendly materials under ISO 18000 standards.
- ★ Low maintenance.
- ★ Visually pleasing and can be used in any environment from homes, caravans, transport, maritime etc...

TECHNICAL DATA SHEET FOR OUR TK11kg BUTANE GAS CYLINDER

- Capacity: 26,2 litres
- Weight: 8,5 Kg, including TechnoKontrol ®
- Gas capacity (butane – LPG): 11 kg.
- Diameter: 299 mm.
- Height: 526 mm.

TECHNICAL DATA SHEET FOR OUR TK6kg BUTANE GAS CYLINDER

- **Capacity: 14 liters**
- **Weight: 6,2 kg including TechnoKontrol ®**
- **Gas capacity (butane – LPG): 6 kg.**
- **Diameter: 299 mm.**
- **Height: 348 mm.**

OTHER APPLICATIONS FOR OUR TECHNOKONTROL® SAFETY TECHNOLOGY

- ◆ Homes
- ◆ DIY & Gardening
- ◆ Caravaning & Sailing
- ◆ Public and private transport
- ◆ Aviation Industry
- ◆ *Agricultural Machinery*
- ◆ Military Instalations
- ◆ Petro-chemical Industry
- ◆ Fuel Transportation
- ◆ Chemical Industry
- ◆ Pipelines and refineries
- ◆ Aerospace Industry
- ◆ Energy Industry
- ◆ Environmental Industry
- ◆ Phama-Medical Industries
- ◆ Naval Industry
- ◆ Safety Industry

In all areas of activity requiring strict control of gases and liquids in both their temperature and mechanical transport

ENVIRONMENT AND SECURITY

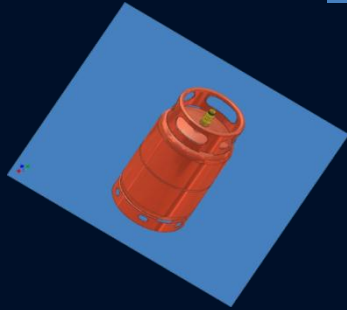

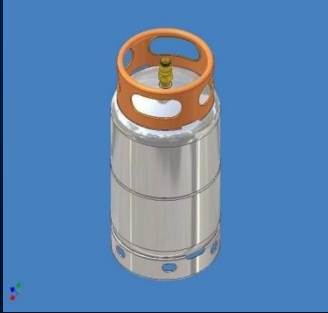

Technokontrol strives to find the most eco-friendly materials so as to reduce any possible contamination in either our production process or throughout the products life span of our products. We can assure our clientele that our products are 100% recycable and that they will never harm the environment.

Technokontrol invests continuously in R&D so as to create products that will help to reduce contamination factors such as CO₂ from industrial sources down to zero. We believe that we can accomplish this through our specially designed “Industrial Chimney filtering technology”.
